## EVERY OTHER 'NEED' HAS A DRINK. STRESS DOESN'T.

Energy, hydration and protein each built billion-dollar categories around solving a daily problem. Stress, the problem making headlines, is still handed off to the supplement category.

## HOW WE PRESENT AT RETAIL

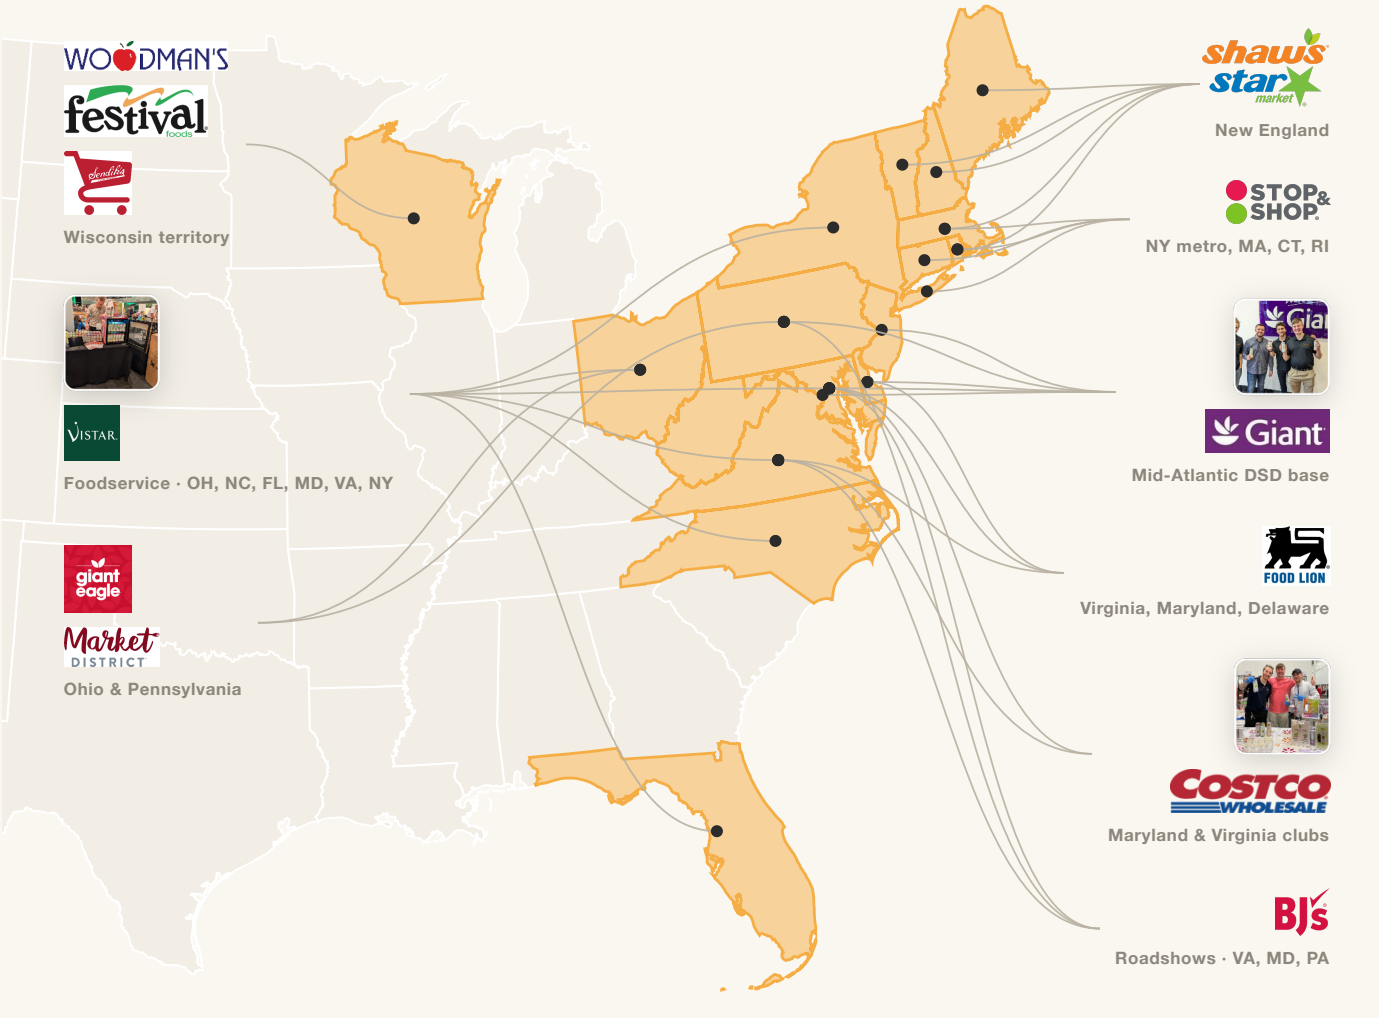

We thrive in the new-age and functional beverage set, shelved alongside brands like Olipop, Poppi and Just Ice Tea.

# WHERE THE CANS ARE MOVING

A dense Mid-Atlantic grocery base now reaches into Ahold Delhaize's Northeast banners, Food Lion across Virginia, Maryland and Delaware, and Giant Eagle in Ohio and Pennsylvania. Costco clubs carry us in Maryland and Virginia, and Vistar takes us into foodservice across Ohio, North Carolina, Florida, Maryland, Virginia and New York. Ohio and a new Wisconsin territory are our first steps beyond that core.

# WE ARE THE 3RD FASTEST GROWING RTD TEA BRAND IN THE COUNTRY

SPINS ranks every shelf-stable RTD tea brand doing \$500K or more nationally. ZenJoy grew dollar sales 89.2% year over year, third out of thirty-nine brands, while sitting in 0.92% of measured US retail. Measured on sales earned per point of distribution, we out-convert both brands that grew faster than us by roughly two to one.

# REVENUE, COGS & OPERATING EXPENSES

Revenue grew to \$761K in H1 on the strength of our four core flavors and continued retail door expansion, with gross margin improving to 51% as we scaled volume. We're spending deliberately to fuel that growth - mostly in commercialization and team growth - and expect spend efficiency to improve as H1 investments mature in H2 & production difficulties subside.

TOTAL REVENUE

**\$761,264**

Jan 1 – Jul 31, 2026, per P&L and product sales report

COST OF GOODS SOLD

# WHERE WE'RE HEADED FOR THE REST OF 2026

We're targeting \$2.0M+ in full-year revenue for 2026, more than double FY2025's \$936.6K. With \$761K already invoiced through July, that means roughly \$1.24M in H2 revenue: an acceleration built on StressLess's launch, a new 5th flavor, expanded distribution in multiple channels, and a 30 club Costco regional launch.

# THE PATH TO A \$25M RUN RATE AND A \$100M+ VALUATION

We exit 2026 at a \$2.0M annual pace from a Mid-Atlantic and Northeast base. Reaching a \$25M run rate by the end of 2028 is a distribution story: **the same partners carrying us today extend into new regions & retailers**, starting with Costco taking us national by 2028. That run rate puts ZenJoy in \$100M+ enterprise value territory, on the path to \$1B.
